## Analysis school performance login

ASP: Analyzing your data (subscs) Analyzing your performance data is an important part of understanding your school's performance and improving your teaching and learning. Read our guide on how to use School Performance Analysis (ASP) - the RAISEonline replacement service - so you know what data is available to you and what to focus on. High, medium and low ate: define Students grouped together as high, medium or low achieved in the primary phase 2 and 4 performance tables. Grasp how this calculation is based on the level of students at the end of KS1 and KS2, and how it is impossible to do this with scale scores. We use cookies to collect information about how you use DfE Login. We use this information to improve our services and to make this website work as efficiently as possible. 1. Sign in to the DfE's main 'Secure Access' website, using a username & password, issued by your school's Safe Access Approver. 2. Click on the 'School Performance Analysis' link and re-enter your username & password. 3. On the ASP landing page, select the relevant main stage, from the navigation bar to the left of the page. You can download the school's Ofsted Test Data Summary Report (IDSR) from your ASP account. 1. After logging in, click 'Report list', to the left of the landing page. 2. Click 'Checkpoint' through the drop-down list. 3. Click on your 2017 IDSR and open or save the report when prompted. For more instructions on how to sign in to asp or troubleshoot sign-in, visit the Secure Access Help page. DfE information video for approver and user on how to set up access to ASP. Prototypes for new primary and sub-test data summary reports can be found on Gov.uk page. The Content Security Access Service has now been moved to the DfE Login. Users can no longer migrate their secure access accounts. Your Secure Access username and password will no longer work and you will need to create a DfE Login account to access DfE online services. Access services using DfE Login DfE services are now accessed using your DfE login account. National Non-Domestic Exchange Rate Academy (NNDR) Requires School Performance Analysis Applicable to Conversion Assessment Services Claiming Additional Payments for Teaching Gathering Information about Schools Getting Information about Students Hiring Teachers Provides and Agency Staff Exchange Information Key to Success (LAs) The Key to Success (Schools) Human Test Panel Ofsted - Fetch Old IDSR - Published Teacher Training Services Collected Online - including Risk Protection Agreements After 16 Portal Published to School Experience School to School T Level Teacher Service Directory - Appropriate Body Teacher Services - Employer Outreach - Teacher Service Agent - Employer - Itt Provider Teaching Vacancies Trainee Teacher Portal das-tool-service Use these guidelines to give your Assessment team access to School Performance Analysis (ASP), replacing the DfE for RaiseOnline. Step 1: Sign in to DfE Login using the administrator login and click 'User'. Step 2: If the user you're setting up is new to the system, click Add Users and set up user details. Step 3: Once the user has been set up, click the user. Step 4: If the user does not have a school performance analysis service set up, then click Add service. If so, click the School Performance Analysis link and please go to step 6. Step 5. Add asp to the list of services and click Next. Step 6. Check the RAISE Named box. Step 7: Sign in to asp again. Then log out of asp. Then log back into asp as this new user. You'll then be able to see the Download link at the top of the main page. Page.
